

Metaltop KS

Ver. 1

Technical Data Sheet

Special GOLD paste for stucco finishes.

METALTOP KS is a special paste studied to attain beautiful gold effects when added to the last coat of VENEXIAN FAUX, MIZAR or MARMORINO. If it is mixed 1:1 with I DAMASCHI Transparent, it becomes a splendid, premium quality, waterborne enamel finishing.

INTENDED USE

Additive for stucco finishes and special enamel effects.

THINNING

Add 1lt of METALTOP KS GOLD to every each 4lt in the final coat of our stucco finishes: VENEXIAN FAUX, MIZAR or MARMORINO. METALTOP KS can also be used mixed 1:1 with I DAMASCHI Transparent, to create splendid gold enamel effect finishes.

SPECIFIC GRAVITY

1230 ± 20 g/l

VISCOSITY

(Brookfield 20°C): 12000 - 14000 mPa-s

ADVICES

Do not apply with air and surface temperatures below 5°C and above 28°C. All the products must be protected from freezing and well stored under cover.

Carefully verify spread rates and the surface area to be coated to avoid running short of product during the working process and reducing the risk of differences in tones.

Mix the products well before use.

Wash tools with warm water before the product dries.

The drying times indicated may vary in relation to the air and surface temperature and the relative humidity. The spread rates of the products have only an indicative value and may vary notably according to the substrate condition and the skill of the applicator. The applicator should always make a test sample prior to carrying out the application.

PAKAGING

containers lt. 1x6 units;

V.O.C. (Directive 2004/42/CE)

28 g/l; Cat. L BA (Max. Value 200 g/l)
